PROFESSIONAL SUMMARY

Insightful Engineering Technician with background collaborating with engineers and scientists on product development. Focused on supporting research and development, manufacturing and inspection processes through technical oversight and problem solving. Keen eye for detail when guiding testing and assisting with regulatory and certification processes.

EXPERIENCE

Self-employed | Lagos, Lagos

● November 2020 - Current

Konica Minolta Bizhub Engineering

I repair and sell Konica Minolta bizhub printing machines to clients with whom I have built relationships to help them scale and build good relationships with their customers for a better printing ecosystem.

Amazing Grace | Lagos, Lagos

● February 2019 - April 2020

Chief Engineer

I was responsible for heading a team of interns and attending to customers that requested our attention for their faulty machines.

- Presented technical resolution to address mechanical troubleshooting issues.

Amazing Grace Concept | Lagos, Lagos

● November 2018 - November 2019

Engineering Intern

I worked as an intern to gain experience in repairing Bizhub colored printing machines.

Okeg | Ikorodu , Lagos

● September 2016 - November 2017

Graphic Designer

I was responsible for attending to walk-in customers to create and design jobs to be printed or copied for other purposes.
